4T65E Transmission Tech Repair & Rebuild Service Book - CD

The 4T60-E is a series of automatic transmissions from General Motors. Designed for transverse engine configurations, the series includes 4 forward gears. The 4Txx family is an evolution of the original Turbo-Hydramatic 125 transverse automatic introduced in the late 1970s. The "-E" transmission is electronically controlled and features an automatic overdrive transaxle with an electronically controlled torque converter clutch. The 4T65 is built at Warren Transmission in Warren, Michigan.

4T65E Transmission Specifications and Cross Reference ...

The Hydra-matic 4T65-E Technician's Guide is intended for automotive technicians that are familiar with the operation of an automatic transaxle or transmission. Technicians or other persons not having automatic transaxle or transmission know-how may find this publication somewhat technically complex if additional instruction is not provided.

4t65e Transmission Tech Guide

The automatic gearbox 4T60E / 4T65E has retimed transmission shift strategy which allows optimal use of the engine's cardinality indicators. At the same time, we note that there is no possibility to change gears manually in the gearbox, and there is only a special sports mode, which resets the transmission and allows the engine to spin up to maximum speed.
