The Abaqus Student Edition is available free of charge to students, educators, and researchers for personal and educational use. The Abaqus SE is available on Windows platform only and supports structural models up to 1000 nodes. The full documentation collection in HTML format makes this the perfect Abaqus learning tool both on campus or on ...

On Windows platforms the Abaqus web server software will start up automatically after a reboot. To determine your graphics card and graphics card driver for Windows systems It is best to use the system Display Properties dialog to get this information, but if there is difficulty finding it or only a remote access to the system is possible the findVid program can be utilized.

The Abaqus PDE is designed to work any type of Python files, including .guiLog files. A .guiLog is a Python script that records actions in the Abaqus/CAE GUI. When you create a .guiLog, it records every mouse click, dialog box entry, and menu, tool, or viewport selection.. To record actions from Abaqus/CAE, the Abaqus PDE session must be associated with a Abaqus/CAE session.
