Robert Lanza (born 11 February 1956) is an American medical doctor, scientist and philosopher. He is currently Head of Astellas Global Regenerative Medicine, and is Chief Scientific Officer of the Astellas Institute for Regenerative Medicine and Adjunct Professor at Wake Forest University School of Medicine

[Biocentrism: How Life and Consciousness Are the Keys to ...](#)

Biocentrism sends the reader on a seemingly improbable but ultimately inescapable journey through a foreign universe, which happens to be our own universe. It does this through the perspective and viewpoints of an acclaimed biologist and leading astronomer.

[Biocentrism](#)

Biocentrism (from Greek βίος bios, "life" and κέντρον kentron, "center"), in a political and ecological sense, as well as literally, is an ethical point of view that extends inherent value to all living things. It is an understanding of how the earth works, particularly as it relates to biodiversity.

[Biocentrism | ethics | Britannica](#)

Biocentrism, also referred to as the biocentric universe, is a theory proposed by renowned scientist, Robert Lanza. This theory explains that life and biology are the central pieces to being, reality and the cosmos. It explains how life creates the universe rather than the other way around. Biocentrism builds upon the ideas of quantum physics.
