Chapter 2 Biology In Focus

A brief summary (17 pages) of key concepts covered in Unit 1 Biology. Topics summarised include: - experiments - cells and cell structure - organic molecules - energy transformations in cells (photosynthesis and respiration) - cell membrane - cell replication - digestion and nutrition in heterotrophs - transport systems (animals ...

Notes for IB Biology chapter 2.2

B2.1 Cells and simple cell transport All living things are made up of cells. The structures of different types of cells are related to their functions. To get into or out of cells, dissolved substances have to cross the cell membranes.
