Food Growing Systems by Aquaponics USA - \$1,795 and up. If you want to raise more than just aquarium fish, and produce more than just the occasional head of lettuce or sprig of basil, be prepared to spend at least \$1500 on a larger system for your garage, greenhouse, or garden.

[The Ultimate Guide To Home Aquaponics System](#)  
The key to aquaponics is the natural bacteria found in the growing bed (called the biofilter). The bacteria eat ammonia and turn it into nitrates, which are great food for plants. Without these nitrifying bacteria, the fish would die in their own waste. Without the nitrates, the plants wouldn't have anything to eat.
