Bridgeport Interact 412 Vertical Machining Center for sale ...

Re: Bridgeport Interact 412 with Hidenhien controller. You did not say if the table would move in manual after moving the table off the switch before it tried to home. In Laymans terms, it is saying you have a disconnect whether it is a mal-functioning switch causing an overtravel, a bad drive, shorted wire or any one of a number of things.

* Please note that retention knobs are not interchangeable. Serious damage or injury may result from the use of an incorrect knob. The end user is responsible for the verification of the supplied knob(s) for his/her machine. Please consult your machine manual or measure one of your existing knobs to ensure that the proper replacements are ordered.
