Flowcrete South Africa is the leading manufacturer of polyurethane, acrylic and epoxy resin floor coatings and specialist adhesives, mortars and grouts across the Sub-Saharan region. With manufacturing and commercial centres in Durban, ...

[Anti-Static Floor Coatings | Electro-Conductive Anti](#) ...

A floor should be able to withstand rising damp and also heavy loads. Water emulsifying epoxy resins from Remmers are economic and ecologically sound solutions for the problem, and have been used successfully for decades to coat floors that are in direct contact with the ground.

[ESD Flooring Systems | Stonhard](#)

Thick, multi-layer ESD epoxy coating. A static conductive, three layer static control epoxy coating manufactured for high traffic manufacturing , assembly and static sensitive areas where a glossy finish is preferred. Meets all aspects of ANSI/ESD S20.20 for use as a grounded floor in an electronics manufacturing facility.

[Key-Conductive Epoxy Flooring System-On-Key-Resin-Co.](#)

Anti-static epoxy flooring is preferred over other flooring methods when it is required to provide a floor having joint-free finishes along with high chemical resistance and decorative properties. Anti-static epoxy flooring is mostly used in electronic and telecommunication industries, automotive industries, pharmaceutical factories, aerospace industries, operation theatres, computer rooms etc.

[ESD Epoxy Flooring - Staticwork, Inc](#)

Resin Floor Design specialise in the application of resin based high performance industrial flooring systems and are approved applicators for numerous reputable material manufacturers. Abattoir floors, abe, Acid proof paint, Acid resistant coatings, Anti bacterial flooring, Anti bacterial coatings, Anti static floors, Anti-static, Anti-static flooring, Approved applicators, Assembly plants ...
