*How Did the Universe Become 'Just Right'? : NPR*

He gives the obligatory run-down of modern particle physics, and offers a set of explanations for why the universe is hospitable to life: it might be just a big coincidence, with no deeper reason ...

*Cosmic jackpot : why our universe is just right for life ...*

Cosmic Jackpot brings the reader up to speed on cosmology. Rigorously honest, effortlessly funny, and wryly skeptical, it's a whirlwind tour through competing and often wild views of the ultimate nature of our universe and other possible universes."

*Cosmic Jackpot: Why Our Universe Is Just Right for Life ...*

A radical new theory says it's because our universe is just one of an infinite number of universes, each one slightly different. Our universe is bio-friendly by accident -- we just happened to win the cosmic jackpot. While this "multiverse" theory is compelling, it has bizarre implications,...

*Cosmic Jackpot: Why Our Universe is Just Right for Life ...*

In Cosmic Jackpot, Davies argues that certain universal fundamental physical constants are precisely adjusted to make life in the Universe possible: that we have, in a sense, won a "cosmic jackpot," and that conditions are "just right" for life, as in The Story of the Three Bears.

*Augustine Collective | String Theory, the Multiverse, and God*

Our universe is bio-friendly by accident -- we just happened to win the cosmic jackpot. While this "multiverse" theory is compelling, it has bizarre implications, such as the existence of infinite copies of each of us and Matrix-like simulated universes. And it still leaves a lot unexplained.

*Compare Cosmic Jackpot: Why Our Universe Is Just Right For ...*

In his book The Cosmic Jackpot: Why Our Universe Is Just Right for Life, (3) Davies finds in the fairy tale of Goldilocks and the Three Bears a potent metaphor for expressing the weird fit between the universe and life. The Three Bears story first appeared when the English poet Robert Southey composed it for his 1837 book The Doctor.

And this is where string theory comes in. Mathematical consistency of string theory requires a universe that has nine dimensions of space and one of time. Our universe, however, appears to have only three dimensions of space and one of time.

*Cosmic Jackpot - Wikipedia*

Writer, physicist and cosmologist Paul Davies discusses his theories on how the universe came to be such a perfect environment for life. Paul Davies, author, Cosmic Jackpot: Why Our Universe is Just Right for Life; director, Beyond Center for Fundamental Concepts in Science; professor, Arizona State University.

*Cosmic jackpot : why our universe is just right for life ...*

Most of "Cosmic Jackpot" is a lively and entertaining high-level review of current theories of the origin of the universe and the remarkable fine tuning of some of the forces and constants of physics that are "just right" to support life. I didn't learn much new, but it was a good read.
