This is a great boxed set. All three books are fantastic! I have reviewed them individually below.-----Dearest Clementine - *5 stars!* Dearest Clementine is a new adult, contemporary romance with a mystery subplot. The story was sweet, humorous and romantic with a touch of mystery/suspense. It was simply delightful.

Dearest Series by Lex Martin - Goodreads
The box set contains three books from the Dearest Series and the best part, each books are standalones focusing on different characters. You can read in order or skip around (I do that sometimes). What I also love about this series is that each book is different, you don't get the same storyline and the steam level is kicked up a notch with each book you read.
