<i>F4rt Engine</i>
The specificity of F4P and F4R engines is that they have a 16-valve cylinder head, similar to the K4J and K4M versions of K-Type engine, over the F4P and F4R engines share the same distribution kit and even water pump that K-Type engine 16 valves (K4J and K4M).

<i>Mégane Renault Sport</i> - Wikipedia
Fortement retravaillé, et renommé F4RT RS, le département Renault Sport est parvenu à tirer de moteur 225 ch. sur la Mégane II RS, et 250 ch. sur la Mégane III RS, preuve des capacités de ce moteur. Ultime évolution en 2009, le TCe 180 Renommé TCe 180, le F4RT a vu quelques évolutions arriver.

<i>Renault F-Type engine</i> - Wikipedia
The F4R engine became very popular due to car Megan and some sports models of Renault. There are many modifications of this motor. Each one has index and power output (from 135 hp up to 138 hp). Almost every engine version is interchangeable with others.

<i>Renault F4R engine build by KMS racing engines for cup ...</i>
The F4R is a new engine, to get to 200bhp wont cost a great deal but to go over that will. Also the problem parts are s expensive as Fred will tell you im sure is there isnt the demand and competition. If say theres was about 50 different tuners all offering different parts etc then that would drive the costs down on the parts.

Ive got an on going oil sweating/ minor leak at tge top of my F4T engine. Just appears around spark plugs. Had local mechanic replace a minor seal. Doesnt seem to be a leak so much as heavy sweating at top of motor. Curious if this is a know issue with engine model? Also is Paris auto in boxhill...

<i>Remontage F4R Gr N - 2eme partie</i>
The Renault Mégane Renault Sport is a series of hot hatch models based on the Renault Mégane, designed and built by French automaker Renault since 2004. The Mégane RS won many awards such as "Best hot hatch" from What car? (2010–2014), "Highest placed non-supercar" in Evo's annual Car of the Year test 2011 and "Best hot hatch" from Top Gear.

<i>Renault f4r engine in South Africa   Gumtree Classifieds ...</i>
As for power yeah unfortunately the standard F4RT engine can only take 300ft lb torque any more and they tend to throw or bend rods. The turbo is running pretty low and it's bigger than needed but the idea behind it was to have it working less so less heat was made which anyone with a meglio knows is the 'Achilles heal' of the conversion, heat.

I'm looking into doing the above conversion, using the F4RT 2.0 turbo engine from either a laguna turbo or megane 225/230 and putting it into my clio 182. The only thing that concerns me is the wiring as the clios have the UCH box controlling most of the electrics, and I would like to retain as many electrical functions on the car as possible ...
