## How to Access Advanced Startup Options in Windows 10/8

Simple triage and rapid treatment  
(START) is a triage method used by first  
responders to quickly classify victims  
during a mass casualty incident (MCI)  
based on the severity of their injury. The  
method was developed in 1983 by the  
staff members of Hoag Hospital and  
Newport Beach Fire Department located  
in California, and is currently widely  
used in the United States.
