contribute to the whole]" (New Century 2). Interpretations are analysis and may include opinion. Caution: Analysis, in this sense, focuses on one text. Synthesis, on the other hand, is summary and analysis of multiple texts. Synthesizing: Readings on a similar topic have, as John Gage says, a "dialectical" relationship. To

Design Synthesis is the process of taken the functional architecture developed in the Functional Analysis and Allocation step and decomposing those functions into a Physical Architecture (a set of product, system, and/or software elements) that satisfy system required functions.. SMC Systems Engineering Handbook, Figure 17. Synthesis is the process whereby the Functional Architectures and ...

Analysis is associated with the scientific method while synthesis is associated with design professions such as architecture. Synthesis relies on the talent of a designer who can immediately begin playing with solutions to a problem.
