Quality function deployment implementation based on ...

T.L. Saaty, The analytic hierarchy process (AHP) for decision making and the analytic network process (ANP) for decision making with dependence and feedback, Creative Decisions Foundation, 2003. N. Yang, dkk, "Behavior Trust Evaluation for Node in WSNs with Fuzzy ANP Method", IEEE Journal and Magazine Publications: Computer Engineering and Technology (ICCET), 2nd (Volume: 1), 2010.

Generalized analytic network process—ScienceDirect

Intuitionistic Fuzzy Analytical Network Process (IF-ANP) for Spatial Multi Criteria Decision Making under Uncertainty Integrating Generations FIG Working Week 2008 Stockholm, Sweden 14-19 June 2008 5/16 3. THE PROPOSED INTUITIONISTIC FUZZY ANP To realize the implementation of IF-ANP, basic definitions of IFS refer to Atanassov [1], can

Applying the Fuzzy Analytical Network Process in Digital ...

The present study aimed at using Using fuzzy Analytic Network Process (FANP) In a SWOT Analysis. On the other hand, In this research we tried to use of strengths, weaknesses, opportunities and threats (SWOT) analysis which is one of the most famous table technique in strategic planning process in identify strategic factors of organization and by discovering and identifying those factors, the ...

IMPLEMENTATION OF FUZZY ANALYTICAL NETWORK PROCESS IN ...

Request PDF | Fuzzy Analytical Network Process Implementation with Matlab | "Fun" is the objective function of a non-linear problem. A variable in the objective function is marked as x(i). If ...

Implementation of Analytic Network Process Method on ...

This paper aims to implement of QFD under a fuzzy environment. In addition, the analytic network process (ANP), the general form of the analytic hierarchy process (AHP) is used, to prioritize design requirements by taking into account the degree of the interdependence between the customer needs and design requirements and the inner dependence ...

Analisis Metode Fuzzy Analytical Network Process untuk ...

5. Generalized analytic network process and its implementation. In this section, we first summarize the main steps of the generalized analytic network process (G-ANP), then give the detail of the implementation of the G-ANP, which is a prototype for a decision support system. 5.1. Generalized analytic network process

Fuzzy Analytical Network Process Implementation with ...

Fuzzy Analytical Network Process Implementation with Matlab 137 study, and the local weights can be easily solved by Matlab software. The stages of Mikhailov's fuzzy prioritization approach are given as follows (Mikhailov, 2003). Consider a prioritization problem with n elements, where the pairwise comparison

Using Fuzzy Analytic Network Process to assess the risks ...

This chapter describes the Analytical Network Process (ANP), a multi-criteria prioritization method to support decision making in complex and uncertain environments and suggests a fuzzy analytic ...

(PDF) A Fuzzy Analytic Network Process Approach

Fuzzy logic is added to conventional ANP to create the fuzzy analytical network process (FANP). FANP makes it possible to work with uncertain information (e.g., see Ahmadi, Yeh, Martin, & Papageorgiou, 2014) and to structure the information in a networking form. Thus, the presented implementation enables improved digital marketing through FANP.

Intuitionistic Fuzzy Analytical Network Process (IF-ANP) ...

DOI: 10.1016/j.asoc.2014.11.025 Corpus ID: 15065409. Using Fuzzy Analytic Network Process to assess the risks in enterprise resource planning system implementation @article{Chang2015UsingFA, title={Using Fuzzy Analytic Network Process to assess the risks in enterprise resource planning system implementation}, author={Betty Chang and Chin Kuo and Chih-Hung Wu and Gwo-Hshiung Tzeng}, journal ...

Applying fuzzy analytic network process in quality ...

In this paper, we propose an empirical study of QFD implementation when fuzzy numbers are used to handle the uncertainty associated with different components of the proposed model. We implement fuzzy analytical network to find the relative importance of various criteria and using fuzzy numbers we calculate the relative importance of these factors.

Applying fuzzy analytic network process in quality ...

This paper proposes a practical framework for assessing a firm's ERP post-implementation success utilising current models through a fuzzy analytic network process. The construct of ERP success is broken down into three main parts, including managerial success, organisational success, and individual success.

Analisis Metode Fuzzy Analytical Network Process untuk ...

File Type PDF Fuzzy Analytical Network Process Implementation With MatlabGOBI Library Solutions from EBSCO provides print books, e-books and collection development services to academic and research libraries worldwide. eoc algebra 1 review packet answers, advanced bushcraft an expert field guide to the art of wilderness survival, wali

Using fuzzy Analytic Network Process (FANP) in a SWOT ...

The obstacle in implementation of road maintenance is the lack of criterias which make difficulties in determining the priority of road maintenance. Decision-making systemis needed to solve the problems of determining the priority of road maintenance. Fuzzy Analytical Network Process (FANP) can solve the direncanakan.problem by

Fuzzy Analytical Network Process Implementation with ...

Analytic Network Process (ANP) used in fuzzy environment because in real-world problems, the relationships between the dimensions (or so-called factors) are usually interdependent and sometimes even exert feedback effects in a fuzzy environment; thus, in this study, fuzzy ANP (FANP) is used for assessing the risks in ERP system implementation.

Using Fuzzy Analytic Network Process to assess the risks ...

Keywords: Quality Function Deployment (QFD), Fuzzy Analytic Network Process (FANP), product planning, part expanding Abstract: In this paper, we propose an empirical study of QFD implementation when fuzzy numbers are used to handle the uncertainty associated with different components of the proposed model.

Fuzzy Analytical Network Process Implementation

Fuzzy set theory has been applied successfully in the decision-making field. Matlab is a suitable tool for solving fuzzy decision-making problems. This chapter is focusing on how to solve a specific class of fuzzy decision-making problem, that is, Fuzzy Analytical Network Process (FANP) by Matlab.

Fuzzy Analytical Network Process Implementation with Matlab

implementation of fuzzy analytical network process in prioritizing transportation problem The main goal of this research is to help decision maker in prioritizing transportation problems. Although numerous criteria were identified, the critical problems of transportation is less investigated.

Fuzzy Analytical Network Process Implementation With Matlab

Implementation of Analytic Network Process Method on Decision Support System of Determination of Scholarship Recipient at House of Lazis Charity UNNES The scholarship is one of the forms of giving/ rewarding funds to individuals or students to use for sustainability during their education.
