The 4th book in the Crossbreed series is gut wrenching. Raven's past finally has some heed way and we learn much about both her vampire and mage sides. More stories with other characters are also starting to form and branch out and it's exciting to learn more about these characters past and how it's come back to effect them now.

In that case, begin with Mageri, Seven, and then Crossbreed. Otherwise, each series is written so they can be enjoyed independently. Dannika's books have sold millions of copies worldwide.

I have read all 3 books and fell in love with the characters. I'm especially smitten with Raven and Christian!! I REALLY enjoy the Audible for the books as well. This is the 1st series I am reading of yours and I LOVE your work. I am now starting The Mageri Series and will keep going from there waiting for book 4.

I'm currently working on the next installment, which will be the biggest in the series. I an never predict the size of a book. Just look at Spellbound: that was meant to be a novella but wound up crossing the line and becoming a short novel. But I'm sure I have no complaints.
