### **Genie : A Scientific Tragedy by Russ Rymer (1994 ...**

Your heart breaks for Genie as you read of her unsettled period after the funding ran out: the transition from one foster home to another; the new abuse; the miserable return to neglect after a period when every attention was lavished on her. It is, if only implicitly, a powerful rebuke to the objectification of scientific subjects.

### **Genie: A Scientific Tragedy**

Sad case of child abuse sheds light on language production versus comprehension. Genie was one of few who survived. Because of her father's sensitivity to noise and lack of care for others, Genie spent the first 13 years of her life strapped to a potty or a chair in a homemade straightjacket. If she made any noise whatsoever,...

## Read PDF Genie A Scientific Tragedy

**by ...**

Genie (feral child) Her circumstances are prominently recorded in the annals of linguistics and abnormal child psychology. When she was a baby her father concluded that she was severely mentally retarded, a view which intensified as she got older, causing him to dislike her and withhold care and attention.

My copy of the book was subtitled "A Scientific Tragedy," which was a much more accurate description of the contents. Genie is the pseudonym given to a modern-day wild child who was discovered in 1970 ...

### **Genie : a scientific tragedy (Book, 1994) [WorldCat.org]**

Genie grew up in a house where her father did not like himself . Her mother did not like herself. Genie was treated as a test subject, not a human. She was bounced around from home to home, went back to her mothers and then to a mental hospital. Whatever happened to Genie in the end is unknown. She is truly a scientific tragedy

### **Genie: A Scientific Tragedy - Russ Rymer - Google Books**

Other media covering Genie and her story is the 2001 independent film "Mockingbird Don't Sing," the 1994 NOVA

## Read PDF Genie A Scientific Tragedy

episode covering Genie's story, and Dr. Susan Curtiss' dissertation for those interested - however "Genie: A Scientific Tragedy" is by far this reviewer's personal favorite.
