How I solved my noisy valve train on my '92 Fatboy 1340 EVO engine. I have been chasing this problem for several months, and it was getting so my bike wasn't fun to ride anymore, as the engine noise seemed louder than my exhaust, especially when I have the windshield on, it tends to amplify all the sounds coming from the engine.

Harley Davidson Sounds | Effects | Sound Bites | Sound ...

The 45° design of the engine thus creates a plug firing sequencing as such: The first cylinder fires, the second (rear) cylinder fires 315° later, then there is a 405° gap until the first cylinder fires again, giving the engine its unique sound. Harley-Davidson has used various ignition systems throughout its history - be it the early ...

mp3 Sound Effect: Harley Davidson start, engine idle and ...

Harley-Davidson motorcycles have always had a very distinctive sound coming from their V-twin engines. We've all heard that roaring engine sound of a Harley blazing down the road. Harley engines produce an exhaust note that is unlike any other. Whether you're talking about Honda, Yamaha, Kawasaki, or any other motorcycle makers, none have been able to produce a similar sound of the Harley ...

The Harley Mystique and the Distinctive Sound - The Harley ...

There is no denying that a Harley-Davidson motorcycle has a unique sound, especially if the mufflers have been removed! Even with the mufflers on, however, it sounds different from other motorcycles. The reason for the sound has to do with the way the engine is designed. If you have read the HowStuffWorks article How Car Engines Work, then you know how a basic four-stroke gasoline engine operates.
