Kidde Micro Ionization Smoke Alarms 0914E, 0915E, 0916E, and 0918E are battery operated smoke alarms which can be the difference between life and death in a fire. These smoke detectors alert you to the threat or danger of fire quickly using ionization sensing technology to detect smaller particles that are created during large fires. These smoke detectors are battery operated to provide further protection in the event of a power outage or electrical failure.

*Kidde Product Documents - User Manuals, MSDS sheets*

- Smoke alarms must be tested regularly to make sure the battery and the alarm circuits are in good operating condition.
- Smoke alarms cannot provide an alarm if smoke does not reach the alarm. Therefore, smoke alarms may not sense fires starting in chimneys, walls, on roofs, on the other side of a closed door or on a different floor.
