I've got a small Kubota diesel engine on my Donkey forklift. It was starting just fine (to my recollection). Then it wouldn't start one day... I opened the fuel bleed and pretty sure I got the air out of the line, still wouldn't start...

Kubota V2203 Engine Problems

If none of these troubleshooting steps work, your Kubota engine probably needs a compression test. That test is best left to the Kubota dealer or a local diesel mechanic. If, in fact, there is a compression problem, the engine more than likely will need to be engine totally rebuilt, or, even worse, you will have to drop in a whole new engine.
