In the meantime, Lightning has continued producing and delivering its first production electric motorcycle, the LS-218. That electric superbike was named after its record-setting top speed of 218...

Lightning Motorcycles

No it is not safe to ride a motorcycle when there is lightning in the area. When lightning hits a car, the metal cage of the car transfers the charge to the ground around the occupants. It has nothing to do with the tires - that's an old fairy tale.

Kit Previews J-O - MODELING MADNESS

No motorcycle needs to make 200 horsepower, with as much torque as a Hyundai iMax people mover. These are figures of absolute excess - and that's the point. The Lightning LS-218 will be a truly, horrifyingly fast motorcycle, the fastest on the planet. And it's set for release this summer in America.
