*Book reviews. Elizabeth E. Peacock reviews Plant Biology ...*

Biological colonization of monuments is a well known phenomenon that results in the coverage of surfaces, loss of the original stone material and the irreversible transformation of the substrata on which the growth of microorganisms occurs. To

*Heritage | An Open Access Journal from MDPI*

In the tentative serial cultural landscape nomination of a World Heritage Site named "The Rise of Systematic Biology", component parts will be included with extant populations consisting of descendants to the once collected individuals that contributed to the foundation of systematic biology by Carl Linnaeus and scientists within his network.

*Hawaiian Ecosystems and Culture - Hawai'i Department of ...*

Cultural ecosystem services (ES) are consistently recognized but not yet adequately defined or integrated within the ES framework. A substantial body of models, methods, and data relevant to cultural services has been developed within the social and behavioral sciences before and outside of the ES approach. A selective review of work in landscape aesthetics, cultural heritage, outdoor ...

Plant Biology for Cultural Heritage: Biodeterioration and Conservation. Los Angeles: Getty Conservation Institute. Caneva, G., O. Salvadori, S. Ricci, and S. Ceschin. 2005. Ecological analysis and biodeterioration processes over time at the Hieroglyphic Stairway in the Copàn (Honduras) archaeological site. Plant

*Plant Biology for Cultural Heritage: Biodeterioration and ...*

Plant Biology for Cultural Heritage presents the work of dozens of scientists who have studied problems presented by the biological degradation of cultural heritage, tackling both general topics (mechanisms of biodeterioration; correlation between biodeterioration and environment; and destructive organisms) and specific ones (problems presented by different materials; various environmental and climatic conditions; and diverse geographic settings). The book also discusses solutions for the ...

*Plant Biology for Cultural Heritage: Biodeterioration and ...*

Plant Biology for Cultural Heritage: Biodeterioration and Conservation. This book brings together wide-ranging scientific contributions from the field of plant biology relating to the biodeterioration and conservation of art, architecture, and archaeological sites around the world.

*(PDF) HOW TO CONTROL BIODETERIORATION OF CULTURAL HERITAGE ...*

This volume presents the work of dozens of leading scientist working on the problems presented by the biological degradation of cultural heritage. "Plant Biology for Cultural Heritage" not only tackles general topics - including mechanism of biodeterioration, correlation between biodeterioration and environment, and destructive organisms - but also specific ones, such as the problems presented by different materials, various environmental and climatic conditions, and diverse geographic settings.

*Plant Biology for Cultural Heritage - Biodeterioration and ...*

The specific cultural requirements of a plant in a vegetable garden are different from those of a plant in the wildflower meadow, as are those that evolved in alpine versus tropical versus desert environments. Cultural requirements for sunshine, soil quality, water, and climate are described below.

*Plant Biology For Cultural Heritage*

Plant Biology for Cultural Heritage presents the work of dozens of scientists who have studied problems presented by the biological degradation of cultural heritage, tackling both general topics (mechanisms of biodeterioration; correlation between biodeterioration and environment; and destructive organisms) and specific ones (problems presented by different materials; various environmental and climatic conditions; and diverse geographic settings). The book also discusses solutions for the ...
