DIRECTIONS: Solve each problem, choose the correct answer, and then fill in the corresponding oval on your answer document. Do not linger over problems that take too much time. Solve as many as you can; then return to the others in the time you have left for this test. You are permitted to use a calculator on this test. You may use your calculator for any problems you choose, but some of the problems may best be done without using a calculator.

correct answer. If your answer isn't an integer, then use '/' to express it as a fraction.

Fraction Practice - Online Math Practice - Free Math Help Answer Key. 1. B. First rewrite the fractions with a common denominator. The least common multiple of 5 and 3 is 15, so multiply the numerator and denominator of the each fraction to make the denominators 15. Now, since the resulting fractions have a common denominator, subtract them by subtracting their numerators and put the result over 15. 2. A.
