STAAD.Pro V8i Technical Reference Manual

Introduction. The STAAD.Pro graphical user interface (GUI) is normally used to create all input specifications and all output reports and displays. These structural modeling and analysis input specifications are stored in STAAD input file - a text file with extension, .STD. When the GUI opens an existing model file, it reads all of the information necessary from the STAAD input file.

STAAD.Pro 2006

Perform comprehensive analysis and design for any size or type of structure faster than ever before using the new STAAD.Pro CONNECT Edition. Simplify your BIM workflow by using a physical model in STAAD.Pro that is automatically converted into the analytical model for your structural analysis.
